

NORTH AMERICAN COLD STORAGE, INC. ENVIROMENTAL POLICY STATEMENT

North American Cold Storage, Inc. is committed to providing outstanding services for our customers. As part of this commitment, North American Cold Storage (NACS) conducts its business activities in an environmentally ethical and honest relationship with employees, customers, suppliers, contractors and communities. It is our intention to protect the environment for future generations. As such, we are committed to the following:

- NACS provides an environmentally friendly and safe work environment for all employees, suppliers, contractors and our communities.
- NACS is committed to continually evaluating reducing and eliminating the environmental impacts of its business activities, products and services.
- NACS complies with all applicable local, state and federal regulations and rules.
- NACS practices and promotes pollution prevention through maintenance education and operational upgrades.
- NACS seeks opportunities to recycle wastes and strives to purchase and use environmentally sustainable products.
- NACS environmental policy is communicated to employees, customers, and contractors and is available to the public.
- NACS will regularly review this policy to ensure its validity and compliance throughout its facility and all future endeavors.
